

INSPECTION TABLE: 1, 2 & 3 STEP

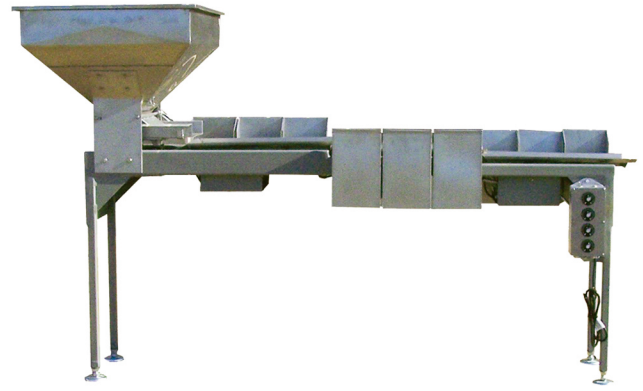

Model Number: ME-EVT-1324

1 STEP INSPECTION TABLE
Model Number: ME-EVT-1N-1324

2 STEP INSPECTION TABLE
Model Number: ME-EVT-2N-1324

3 STEP INSPECTION TABLE
Model Number: ME-EVT-3N-1324

PRODUCT DESCRIPTION

Before bagging the product, pecan shellers must have their employees visually inspect the product on both sides. This Inspection Table comes standard with input hopper, variable speed controller for the trays, and reject containers at each step. Built from heavy wall tubing, this sturdy table will last and last, not only because of it's construction, but because there are virtually no moving parts. This makes maintenance a breeze. Simply unplug and remove the drive units, and the entire table can be cleaned in no time at all. All food contact surfaces are made of stainless steel.

SPECIFICATIONS

Capacity: The Inspection Tables are capable of clearing clearing within about 3 seconds per deck.

| | | |
|--------------------------|----------------------------------|---|
| 1 Step Inspection Table: | Estimated Crated Weight: 368 lbs | Dimensions: 37" W x 51" L x Variable Height |
| 2 Step Inspection Table: | Estimated Crated Weight: 476 lbs | Dimensions: 37" W x 74" L x Variable Height |
