

SINGLE BASKET BATCH DRYER

Model Number: ME-SBD-S-100

PRODUCT DESCRIPTION

The single basket batch dryer was designed with the small to micro-processor in mind. This simple and inexpensive machine dries up to 100 pounds of kernel per basket. It is constructed of 304 stainless steel and can be cleaned easily inside and out. The covers can be removed for access to the internal areas and the basket can be easily removed by pulling two quick-disconnect pins. The drying temperature is controlled and maintained with the integrated thermostat and the adjustable blower speed can be used to set drying and cooling times. Use this dryer to remove excess moisture from the kernel before bagging which will increase the shelf life and value of your product.

SPECIFICATIONS

Capacity : Each basket will hold 100 lbs.

The time taken to dry the product depends on the moisture content of the product

Estimated Crated Weight : 880 lbs
